## HOGUE KNIVES®

Hogue Knives has surpassed a decade of precision engineering and stringent manufacturing practices that have given rise to quality knives of exceptional performance. Our team is led by Master Tool Maker Jim Bruhns and his partner Neil Hogue. Every knife that leaves the floor leverages the expertise of these generations of passionate craftsmen and ambitious end users.

Hogue Knives are meticulously crafted in the USA. This not only helps to support our economy, it also allows us to maintain the highest level of quality during every step of the process. We supply knives to the United States military as an approved vendor.

At Hogue Knives we strive to ensure that we deliver the best possible fit, form and function that we are capable of producing so that your knife is dependable and can be enjoyed for a lifetime.

Hogue Inc. is a family owned and operated business that was founded in 1968 by Guy Hogue. Guy's legacy of innovative, high quality American engineering and craftsmanship has been carried forth under the leadership of sons Aaron Hogue (President), Pat Hogue, grandson Neil Hogue and partner Jim Bruhns (President of Hogue Tool and Machine).

# MATERIALS

## USA BLADE STEELS

\*Chemical Composition (AISI)

C MN SI CR MO V W P S

1.05 0.20-0.80 0.201.00 13.50-14.00 0.00-0.40 0-0.40 0.03 0.03

154CM is a hard working, highly stain resistant steel that takes and holds a keen edge. It is used in our fixed blades, folders and automatic knives. We finish the surface with either a well wearing stone wash or abrasion resistant, thin baked Cerakote firearms coating.

C MN SI CR MO V W P S

1.05-1.10 .50 .40 14.00 4.00 0.45 0.40 0.08 0.03

CPM 154 offers superior corrosion resistance while providing excellent edge retention and a high degree of toughness. We finish the surface with either a well wearing stone wash or abrasion resistant, thin baked Cerakote firearms coating.

C MN SI CR MO V W P S

1.45 14.00 2.00 4.00 2.00

CPM S30V is a martensitic stainless steel designed to offer the best combination of toughness, wear and corrosion resistance. Its chemistry has been specially balanced to promote the formation of vanadium carbides which are harder and more effective at cutting than chromium carbides.

C CR V MO

1.90 20.00 4.00 1.00 0.60

CPM 20CV is a martensitic stainless steel with a high volume of vanadium carbides for exceptionally good wear resistance. It contains the highest amount of chromium of any high-vanadium stainless steel currently available. The chromium rich matrix provides outstanding corrosion resistance.

C MN SI CR MO V W P S

0.95-1.05 0.66-1.00 0.30-0.50 4.75-5.50 0.90-1.40 0.20-0.25 0.25 0.30 0.03

A2 is used for our EX-F01 fixed blade series. The carbon tool steel has an excellent reputation for toughness, making it a great choice for hard-use, field knife applications. A Cerakote finish improves corrosion resistance.

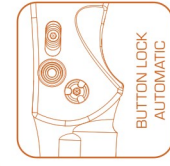

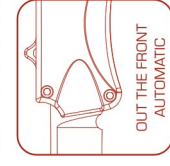

C MN SI CR MO Ni N V

0.54 0.40 0.45 0.45 17.30 1.1 0.50 0.20 0.10

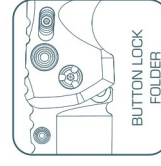

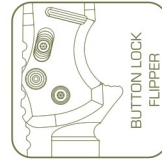

Our Trauma line of first response tools are built with this special application steel. This material offers excellent corrosion resistance which is perfect for ongoing first response situations. N680 also contains vanadium which gives the metal more flexibility and chip resistance.

# MECHANISMS

## AUTOMATIC

## MANUAL

## EXPLOIT®

OUT THE FRONT AUTOMATIC

### SPECS

- 3.5" Tanto or Clip Point
- 4.8" Closed Length
- 8.3" Overall Length
- 4.0 oz. Weight

### BLADE

- 0.125" Thick CPM S30V Stainless Steel
- Cryogenically Heat Treated to 57-59 HRC
- Hand Sharpened and Honed Edge
- Stone Tumbled or Black PVD Finishes

### MECHANISM

- Double Action Automatic Trigger Deployment & Retraction

### FRAME

- 6061-T6 Anodized Aluminum

- Deep Carry, Tip Down, Ambidextrous Pocket Clip
